

HARSHITH KUMAR MANNEPALLI

harshithkumar6@gmail.com | linkedin.com/in/harshith-kumar-dev | github.com/Harshithk951 | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate (AI/ML) with strong hands-on experience in building scalable, production-ready full-stack applications and AI-driven systems. Proficient in Java, React, TypeScript, Node.js, and modern cloud-native architectures, with a proven ability to design clean APIs, normalized databases, and performant UIs. Demonstrated problem-solving skills through hackathon wins and real-world projects involving multi-agent AI systems, automation workflows, and data-driven platforms. Passionate about building user-centric products, writing maintainable code, and contributing to high-impact engineering teams in fast-paced product environments.

EDUCATION

Uttaranchal University

Bachelor of Technology in Computer Science (Specialization: AI/ML)

Dehradun, India

Aug 2023 – May 2027

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, OS, AI, Machine Learning, Computer Networks

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frameworks: React.js, Node.js, Tailwind CSS, Vite

Databases: MySQL, PostgreSQL, Supabase, Firebase

Core CS Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, REST APIs

AI/ML Tools: Anaconda, LangChain, Google Colab, n8n Automations

Developer Tools: Git, GitHub, VS Code, Postman, Vercel

AI-Assisted Development: Cursor, Claude, Google AI Studio

EXPERIENCE

Full Stack Web Development Intern

Remote

Uplyx Solutions Pvt Ltd

Jun 2025 – Jul 2025

- Engineered responsive web components using React.js and Tailwind CSS, optimizing rendering performance.
- Integrated RESTful APIs to handle dynamic content, improving application load speed and user engagement.
- Collaborated with senior developers to debug issues and implement Git workflows for version control.

Technical Project Lead

Uttaranchal University

Hackathon & Development Initiatives

Oct 2025

- Supervised the end-to-end software development life cycle (SDLC) for a 6-member team, managing project backlogs and strategic resource allocation to deliver high-impact solutions.
- Architected scalable technical workflows and standardized peer review processes, ensuring code reliability, security, and the seamless integration of cross-functional full-stack modules.

PROJECTS

Uni-Connect Hub | *React, TypeScript, Node.js, Firebase* | [GitHub](#) | [Live Link](#)

- Built an alumni networking platform featuring real-time messaging, event management, and mentorship programs.
- Won 1st place in university hackathon among 100+ teams by delivering a production-ready MVP in 24 hours.
- Designed a normalized database schema to handle complex relationships between students, alumni, and jobs efficiently.

Smart Healthcare Appointment Management System | *React, Supabase, Tailwind* | [GitHub](#) | [Live Link](#)

- Developed a bilingual healthcare platform digitizing 500+ patient records with appointment booking capabilities.
- Implemented Supabase backend with Row Level Security and JWT authentication, reducing data retrieval time by 75%.
- Engineered an intuitive admin dashboard enabling real-time queue management and automated daily report generation.

Smart Sales Intelligence Agent | *Python, Gemini 2.0, n8n, Multi-Agent* | [GitHub](#)

- Architected a multi-agent AI system for the Google AI Agents Intensive, reducing sales research time from hours to minutes.
- Built 4 specialized agents utilizing Memory Bank caching to handle repeat queries 90% faster.
- Integrated n8n automation workflows to trigger agent responses based on live data, streamlining lead generation.

CERTIFICATIONS

- Oracle Cloud Infrastructure Gen AI Professional** – Oracle (ID: 322494826OCI25GAIOCP)
- Full Stack Web Development** – Uplyx Solutions Pvt Ltd (ID: UPXAB1069)
- Google AI Agents Intensive** – Google for Developers

ACHIEVEMENTS

- Hackathon Winner:** Secured 1st place in University Hackathon (Top 5% of 100+ teams).
- SHL Assessment High Scorer:** Achieved 89% in Data Structures and 89% in DBMS (Industry Standard Test).
- Problem Solving:** Solved 70+ Data Structures and Algorithms problems on LeetCode using Java.
