## EDUCATION

### Uttaranchal University

Bachelor of Technology in Computer Science (AI/ML) | **CGPA: 7.34/10**

Dehradun, India

Expected May 2027

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, TypeScript, SQL

**Tech Stack:** React.js, Node.js, Tailwind CSS, PostgreSQL, Supabase, REST APIs

**Tools:** Git, GitHub, Vercel

## EXPERIENCE

### Open Source Contributor — Cal.com & freeCodeCamp

[cal.com/cal.com](https://cal.com/cal.com) | [freeCodeCamp/freeCodeCamp](https://freeCodeCamp/freeCodeCamp)

Remote

Mar 2026 – Present

- Contributed 37+ PRs across Cal.com, freeCodeCamp, Excalidraw, and VS Code; 4 merged in production codebases used by millions globally.
- Cal.com: Fixed critical CalDAV calendar sync failure on booking, resolved 500 error during billing, and corrected license check logic in API v2 — all impacting live production users.
- freeCodeCamp: Fixed missing test case in Screaming Snake Case challenge (wrong solutions were passing) and improved recursion test coverage for Countdown and Range of Numbers challenges.

## PROJECTS

### Smart Healthcare Management System | *React, TypeScript, Tailwind, Supabase* | [GitHub](#) | [Live](#)

- Built full-stack healthcare platform allowing patients to find nearby hospitals via Google Maps, book appointments, and manage medical records, eliminating waiting queues.
- Designed Supabase backend with Row Level Security and JWT authentication, achieving 75% faster data retrieval.
- Created admin dashboard for doctors to view, approve, edit, and reject appointments with real-time queue management and automated PDF report generation for 500+ patient records.

### Uni-Connect Hub | *React, TypeScript, Node.js* | [GitHub](#) | [Live](#)

- Built alumni-student networking platform for Smart India Hackathon (SIH); selected in internal university round for real-world problem solving.
- Optimized database queries reducing data fetch time from 2.3s to 0.6s with role-based access control for 200+ users.
- Implemented separate authentication flows for students, alumni, and administrators.

### InclusiveLMS + Rural EdGame | *React, TypeScript, Vite, Web Speech API* | [GitHub](#) | *24-Hour Hackathon*

- Built two real-world apps in 24 hours addressing UN SDG 4 (Quality Education) — an accessibility-first LMS for differently-abled students and an offline educational game for children in rural areas with no internet access.
- Implemented voice command navigation using Web Speech API allowing hands-free course control; integrated AI content generator for automatic quiz creation, captions, and summaries.

## CERTIFICATIONS

- Oracle Cloud Infrastructure Gen AI Professional** – Oracle (ID: 322494826OCI25GAIOCP)
- Full Stack Web Development** – Uplyx Solutions Pvt Ltd (ID: UPXAB1069)
- Google AI Agents Intensive** – Google for Developers (2025)

## ACHIEVEMENTS

- Hackathon:** Selected in university internal round for Smart India Hackathon (SIH) with Uni-Connect Hub; built 2 real-world solutions in 24 hours at Dev Bhoomi Hackathon.
- SHL Assessment:** Scored 89% in Data Structures & Algorithms and 89% in DBMS.
- Open Source:** 37+ pull requests across Cal.com, freeCodeCamp, Excalidraw, and VS Code; 4 merged in production.
